

BUILDING INDIA'S COLD CHAIN INFRASTRUCTURE

Establishing Linkages between U.S. & Indian Firms

AGENDA

AGENDA					
Time	Session/Activity Description	Lead Presenter(s)			
	DAY-01				
09:00 - 09:30 AM	Registration	IARW/WFLO-India			
	Introduction to the Cold Chain Workshops				
	? Welcoming presentations/greetings	USTDA			
09:30 – 10:15 AM	? Inaugural Address	Mr. Henry V. Jardine, Consul			
09.30 - 10.13 AM		General, U.S. Consulate General,			
	? Why is an integrated cold chain so important for India?	Kolkata* (*To be confirmed)			
		IARW/WFLO-HQ			
	Module 1: Postharvest Technology for Handling Fresh Fruits and Vegetables				
10:15 – 11:00 AM	? M1.01 Overview of basic postharvest handling practices from harvest to the	Dr. Adel A. Kader			
	consumer				
11:00 - 11:15 AM	Tea/Coffee Break				
	Module 2: Microbiology and Bio-technology and the Cold Chain				
11:15 – 12:00 Noon	? M2.03 Microbes associated with foods and organic materials—contamination	Dr. Sunil Saran			
	problems, microbial growth on and in foods, food spoilage issues				
	Module 3: Food Safety Issues and Practices				
12:00 - 01:00 PM	? M3.01 Overview of Food Safety Issues and the Cold Chain	Mr. Amit Sachdev			
	? M3.02 Food safety hazards—physical, chemical and biological				
01:00 - 02:00 PM	Lunch				
	Module 4: Refrigeration and Cold Storage Practices				
02:00 - 03:00 PM	? <i>M4.01</i> Refrigeration, relative humidity and vapor pressure; Thermal	Mr. Ron Vallort			
	characteristics of cold storage structures				
03:00 – 04:00 PM	Module 4: Refrigeration and Cold Storage Practices	Mr. Gurmit Singh			
03.00 - 04.00 FM	? M4.06 A Model Integrated Cold Chain Facility for India	Wir. Gurinit Singii			
04:00 - 04:15 PM	Tea/Coffee Break				
04:15 – 05:15 PM	Module 5: Cold Chain Management for the Foods & Fresh Produce Industries	Mr. Doug Weathers			
04.13 - 03.13 FM	? <i>M5.01</i> Overview of the Management of Cold Storage Facilities	Wir. Doug Weathers			
	DAY-02				
09:00 - 09:30 AM	Registration	IARW/WFLO-India			
Session 01	Postharvest Handling, Food Safety, Microbiology & the Cold Chain (Con-	current Session with Modules 4 & 5)			
00.20 10.00 AM	Module 1: Postharvest Technology for Handling Fresh Fruits and Vegetables	Dr. Adel Veden			
09:30-10:00 AM	? <i>M1.02</i> The relationship between Maturity and Quality, use of Maturity Indices	Dr. Adel Kader			
	? M1.03 Sorting and grading effects on postharvest shelf life				
	? M1.04 Curing practices used to extend postharvest lifeonions and garlic,				
10:00-10:30 AM	potatoes	Dr. Lisa Kitinoja			
	? M1.05 Packing practices and packaging materials effects on postharvest shelf				
	life				
	? M1.06 Respiration rate of fruits and vegetables – temperature effects and				
10.20 11.15 AM	senescence				
10:30-11:15 AM	Senescence	D., A 1-1 IZ- 1			
10.30-11.13 AW	? <i>M1.07</i> Efficient pre-cooling methods and relative humidity control	Dr. Adel Kader			
10.30-11.13 AW		Dr. Adel Kader			
10.30-11.13 AW	 M1.07 Efficient pre-cooling methods and relative humidity control M1.08 Transportation—cold trucks versus open loads 	Dr. Adel Kader On display during the day in the			
	 ? M1.07 Efficient pre-cooling methods and relative humidity control ? M1.08 Transportation—cold trucks versus open loads Module 1 Demonstrations/Displays: 				
All Day	 ? M1.07 Efficient pre-cooling methods and relative humidity control ? M1.08 Transportation—cold trucks versus open loads Module 1 Demonstrations/Displays: ? Tools for measuring maturity indices 	On display during the day in the

Establishing Linkages between U.S. & Indian Firms

Time	Session/Activity Description	Lead Presenter(s)
	? M2.02 Classifications of foods according to pH and ease of spoilage	Dr. Farbod Youssefi
	? M2.04 Effects of low temperature on microbial growth	Dr. Sunil Saran
	Module 2 Demonstrations/Displays:	On display during the morning in
	? Posters, illustrations and/or live cultures showing microbial growth on selected	the conference room, to be
All Day	food products	discussed as part of the various
	? Methods for calculation of microbial loads (counts) on selected products after	Module 2 sessions.
	selected periods of time at 0°, 10°, and 20° C.	Wioddie 2 sessions.
02:30 -03:00 PM	Module 3: Food Safety Issues and Practices	Dr. Sunil Saran
	? M3.03 Food borne diseases—low temperature food pathogens	Dr. Sum Surun
03:00 - 03:15 PM	Coffee/ Tea break	
03:15-03:45 PM	Modules 2 and 3 Working Group Exercise:	
	? Assessing the presence of gram negative bacteria on fresh produce and food	Dr. Farbod Youssefi
00110 00110 1111	products (Quick Alert Method)	Dr. Sunil Saran
	? Question and Answer Session	
	Module 3: Food Safety Issues and Practices	
	? M3.04 Good Agricultural Practices (GAP)	Dr. Farbod Youssefi
03:45- 04:45 PM	? M3.05 Good Manufacturing Practices (GMP) and HACCP for low temperature	Mr. Amit Sachdev
	food storage	
	? M3.06 Looking to the future: Global markets and food safety issues	
	Module 3 Working Group Exercise:	Dr. Farbod Youssefi
04:45 -05:15 PM	? Practice performing a simplified GAP or GMP self-audit	Mr. Amit Sachdev
	? Question and Answer Session	
	Module 3 Demonstrations/Displays:	On display during the afternoon in
All Day	? Tools and illustrations used for monitoring and measuring factors related to food	the conference room, to be
7 III Duy	8	discussed as part of the various
	safety.	-
00:00 00:20 AM	safety.	Module 3 sessions.
09:00 - 09:30 AM	Registration	-
09:00 - 09:30 AM Session 2	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3)	Module 3 sessions.
Session 2	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices	Module 3 sessions. IARW/WFLO-India
	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and	Module 3 sessions.
Session 2	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store;	Module 3 sessions. IARW/WFLO-India
Session 2 09:30-10:45 AM	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations	Module 3 sessions. IARW/WFLO-India
Session 2	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations Tea/Coffee Break	Module 3 sessions. IARW/WFLO-India
Session 2 09:30-10:45 AM 01:45-11:00 AM	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations Tea/Coffee Break ? M4.03 Efficient methods for pre-cooling and cold storage—comparisons of	Module 3 sessions. IARW/WFLO-India Mr. Ron Vallort
Session 2 09:30-10:45 AM	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations Tea/Coffee Break ? M4.03 Efficient methods for pre-cooling and cold storage—comparisons of room cooling, forced air cooling, use of ambient or modified atmospheres, high	Module 3 sessions. IARW/WFLO-India
9:30-10:45 AM 01:45-11:00 AM 11:00 – 12:00 Noon	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations Tea/Coffee Break ? M4.03 Efficient methods for pre-cooling and cold storage—comparisons of room cooling, forced air cooling, use of ambient or modified atmospheres, high relative humidity.	Module 3 sessions. IARW/WFLO-India Mr. Ron Vallort Dr. Lisa Kitinoja
Session 2 09:30-10:45 AM 01:45-11:00 AM	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations Tea/Coffee Break ? M4.03 Efficient methods for pre-cooling and cold storage—comparisons of room cooling, forced air cooling, use of ambient or modified atmospheres, high relative humidity. ? M4.04 Storage conditions recommended for selected commodities—	Module 3 sessions. IARW/WFLO-India Mr. Ron Vallort
9:30-10:45 AM 01:45-11:00 AM 11:00 – 12:00 Noon 12:00 – 12:30 PM	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations Tea/Coffee Break ? M4.03 Efficient methods for pre-cooling and cold storage—comparisons of room cooling, forced air cooling, use of ambient or modified atmospheres, high relative humidity. ? M4.04 Storage conditions recommended for selected commodities—tropical/sub-tropical fruits and vegetables, temperate fruits/vegetables,	Module 3 sessions. IARW/WFLO-India Mr. Ron Vallort Dr. Lisa Kitinoja
9:30-10:45 AM 01:45-11:00 AM 11:00 – 12:00 Noon 12:00 – 12:30 PM 12:30 – 01:30 PM	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations Tea/Coffee Break ? M4.03 Efficient methods for pre-cooling and cold storage—comparisons of room cooling, forced air cooling, use of ambient or modified atmospheres, high relative humidity. ? M4.04 Storage conditions recommended for selected commodities—tropical/sub-tropical fruits and vegetables, temperate fruits/vegetables, Lunch	Module 3 sessions. IARW/WFLO-India Mr. Ron Vallort Dr. Lisa Kitinoja Dr. Lisa Kitinoja
9:30-10:45 AM 01:45-11:00 AM 11:00 – 12:00 Noon 12:00 – 12:30 PM	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations Tea/Coffee Break ? M4.03 Efficient methods for pre-cooling and cold storage—comparisons of room cooling, forced air cooling, use of ambient or modified atmospheres, high relative humidity. ? M4.04 Storage conditions recommended for selected commodities—tropical/sub-tropical fruits and vegetables, temperate fruits/vegetables, Lunch ? M4.05 Storage considerations—special considerations for apples, grapes,	Module 3 sessions. IARW/WFLO-India Mr. Ron Vallort Dr. Lisa Kitinoja

9:30-10:45 AM 01:45-11:00 AM 11:00 – 12:00 Noon 12:00 – 12:30 PM 12:30 – 01:30 PM All Day 02:00 – 02:30 PM 02:30 – 03:00 PM	Registration Refrigeration and Cold Storage (Concurrent Session with Modules 1, 2 & 3) Module 4: Refrigeration and Cold Storage Practices ? M4.02 Selection of appropriate refrigeration/freezing units (BTU and refrigerants); Measuring and monitoring temperatures in the cold store; Minimizing temperature fluctuations Tea/Coffee Break ? M4.03 Efficient methods for pre-cooling and cold storage—comparisons of room cooling, forced air cooling, use of ambient or modified atmospheres, high relative humidity. ? M4.04 Storage conditions recommended for selected commodities—tropical/sub-tropical fruits and vegetables, temperate fruits/vegetables, Lunch ? M4.05 Storage considerations—special considerations for apples, grapes, potatoes, onions, edible nuts Module 4 Demonstrations/Displays: ? Temperature compatibility charts ? Temperature measuring tools and devices (handheld digital probe, automated monitoring systems) Module 5: Cold Chain Management for the Foods & Fresh Produce Industries ? M5.02 Separation of pre-cooling and cold storage functions within the cold store ? M5.03 Pallet layout and stacking options—benefits of standardization of palletization Question and Answer Session	Module 3 sessions. IARW/WFLO-India Mr. Ron Vallort Dr. Lisa Kitinoja Dr. Lisa Kitinoja Dr. Adel Kader On display during the day in the conference room, to be discussed as part of the various Module 4 sessions

BUILDING INDIA'S COLD CHAIN INFRASTRUCTURE

Establishing Linkages between U.S. & Indian Firms

Time	Session/Activity Description	Lead Presenter(s)		
	? M5.05 Produce and temperature traceability			
	? <i>M5.06</i> Risk management issues and methods			
All Day	Module 5 Demonstrations/Displays:	On display during the day in the conference room, to be discussed as part of the various Module 5 sessions.		
	? Temperature recording devices used during transport			
	? Documentation worksheets for traceability.			
	Cold Chain Problem Diagnosis:			
04:15 – 05:00 PM	? Identifying the causes and sources of postharvest losses and quality problems	Dr. Adel Kader		
DAY-03				
09:00 - 09:30 AM	Registration	IARW/World Food Logistics Organization-India		
09:30 – 10:15 AM	Module 4: Refrigeration and Cold Storage	Mr. Ron Vallort		
07.30 - 10.13 AW	? Review of Key Concepts and Practices	Wii. Kon vanort		
	Module 5: Cold Chain Management for the Foods & Fresh Produce Industries			
	? <i>M5.07</i> Speed versus Safety—worker safety issues ? <i>M5.08</i> Truck versus railroad transport—feasibility, convenience, costs/benefits			
10:15 - 11:00 AM	? <i>M5.08</i> Truck versus railroad transport—feasibility, convenience, costs/benefits ? <i>M5.09</i> Management of transport vehicles and loads—fast-loading devices, air	Mr. Doug Weathers		
	distribution/air renewal rates, cleaning and maintenance of vehicles and			
	equipment.			
11:00 -11:15 AM	Coffee/Tea Break			
11:15 – 11:45 AM	? M5.10 Insulation of docks—costs and benefits	Mr. Doug Weathers		
11.13 11.4371141	? M5.11 Multi-compartment and multi-temperature vehicles	Wil. Doug Weathers		
11:45 – 12:00 Noon	DVD presentation:	UC PTRIC		
	? Loading makes a difference Module 1: Postharvest Technology for Handling Fresh Fruits and Vegetables			
12:00- 12:30 PM	? <i>M1.11</i> Retail packaging and display methods effects on postharvest shelf life	Dr. Lisa Kitinoja		
12:30 - 01:30 PM	Lunch	At the hotel venue		
	Module 1: Postharvest Technology for Handling Fresh Fruits and Vegetables			
01:30 – 02:00 PM	? <i>M1.12</i> Concerns of importers/exporters sending fresh produce to India	Dr. Lisa Kitinoja		
	? M1.13 Issues for exporters sending fresh produce from India to global markets			
	Module 1 Demonstrations/Displays: ? Tools for measuring maturity indices	On display during the day in the		
All Day	? Packages designed for protection and proper pre-cooling	conference room, to be discussed as		
7111 Day	? Effects of temperature (0°, 10°, and 20° C storage for 1 week) on postharvest	part of the various Module 1		
	life (visual appearance, overall quality characteristics, decay rates, market value)	sessions.		
	Module 4 Working Group Exercises:	Mr. Ron Vallort Mr. Doug Weathers		
	? Practice the calculation of refrigeration and freezing loads for various products,			
02:00 – 02:45 PM	storage rooms and temperature zones			
	? Practice the calculation of times required for pre-cooling selected commodities			
02:45 – 03:00 PM	using forced air cooling, given varying initial and desired temperatures **Coffee/Tea Break**			
03:00 – 03:15 PM	Training materials CD Demo	Dr. Lisa Kitinoja		
03:15 – 04:00 PM	Module 1 Working Group Exercises:			
	? Calculation of potential storage life for selected commodities based upon various	Dr. Lisa Kitinoja		
	cold storage and ambient temperatures and the associated respiration rates	Dr. Adel A. Kader		
	Working Group Exercises:			
04:00 – 05:00 PM	? Cost/Benefit Worksheets related to all 5 Modules	All instructors		
	? Calculation of the costs and benefits associated with a change in selected			
	postharvest handling practices. ? Question and Answer Session			
	? Question and Answer Session? Program Evaluation			
	: 1 lograni Evaluation
